Greta Thunberg is an environmental activist. She was born in Stockholm, Sweden, in 2003. When she was eight, she started learning about climate change. The more she learned, the more baffled she became as to why so little was being done about it. At the age of 11, Greta became so sad about climate change that she temporarily stopped speaking! Greta has Asperger's syndrome, a condition that affects how people socialise. But Greta views her condition as a superpower! She says it helps her see the world in black and white, and that there is "no grey area" when it comes to climate change. In August 2018, Greta decided to take action. Instead of going to school, she made a large sign that read "Skolstrejk för klimatet: SCHOOL STRIKE FOR CLIMATE," and calmly sat down outside the Swedish parliament. Her aim? To make politicians take notice, and act to stop global warming. Greta's strike was picked up by the Swedish media, and the word started to spread. Soon enough, tens of thousands of students from around the world joined her. #FridaysForFuture strikes — skipping school on Fridays to protest — began in more than 125 countries! In March 2019, climate campaigners across the world — and inspired by Greta, came together to coordinate the first Global Strike for Climate. Over 1.6 million people from 125 countries took part! Since her strike began, Greta's life has become a whirlwind! She's appeared in documentaries and books, addressed the UK parliament, the US parliament, and even rousing speeches to UN politicians. She's given hope to protesters, and more. She's even been nominated for a Nobel Peace Prize. In August 2019, Greta travelled on a solar-powered boat from Plymouth, UK, to New York, USA — the journey took 15 days. Her passionate speech warned of a mass extinction and said: "We are in the beginning of a mass extinction, and all you can talk about is money and fairy tales of eternal economic growth. How dare you!" Greta has drawn much attention from all over the world, changing how some people think and act about climate change. Her impact is called the "Greta Effect." Greta has named Rosa Parks, the civil rights activist, as one of her greatest inspirations. In the 1950s, Rosa sparked a civil rights movement that improved the lives and treatment of millions of African Americans.

1.A. Choose the correct answer from the alternatives:

(1x5=5)

(a) Why is Greta Thunberg renowned?

- (i) because she has been nominated for a Nobel Peace Prize (ii) for supporting the Civil Rights Movement
(iii) for her role in eternal economic growth (iv) for her raising voice against global climate change

(b) 'Asperger syndrome' is a —

- (i) a condition that affects physical development
(ii) a disease that slows down a child's mental and intellectual growth
(iii) a critical mental disorder causing one to cause violence and disorder
(iv) a developmental disorder causing difficulties in social interaction and non-verbal communication

(c) Greta started learning about climate change in —

- (i) 2008 (ii) 2011 (iii) 2019 (iv) 2003

(d) The synonym of the word 'baffled' is —

- (i) struggled (ii) combated (iii) perplexed (iv) amazed

(e) Greta stopped speaking for the time being because —

- (i) She became physically disabled.
(ii) She was extremely sad and severely shocked at severe global climate change.
(iii) She fell victim to Asperger syndrome.
(iv) She found the climate change issue too difficult to be controlled.

1.B. Answer the following questions:

(5x2=10)

(a) Who was Greta Thunberg? What did she begin to learn from her early life?

(b) What does the statement "The more she learned, the more baffled she became" mean?

(c) What caused Greta's stopping speaking temporarily?

(d) What is Asperger's syndrome? How does Greta consider her Asperger's syndrome?

(e) "How dare you!" – Explain this fiery voice of Greta.

2. Read the passage and complete the table below with the given information. 1x10=10

What/Who	Events/Activity	Where/Why	When/How
Greta, an environmental activist	(i).....	(ii).....	In 2003
This activist	Started to learn about climate change		(iii).....
(iv).....	Joined Greta's Fridays for future strikes	(v).....	
(vi).....	Was written on a large sign she made		
Asperger syndrome	(vii)..... to Greta		
Greta	Made decisions to take action		(viii).....
Her aim of setting down outside the Swedish parliament	(ix).....		
(x).....	became sad enough about climate change to stop speaking		

Or,

Read the above passage and make a flowchart showing the reactions of Greta Thunberg about climate change. (One is done for you.)

2x5=10

1. Learning about climate change	→	2	→	3	→	4	→	5	→	6
----------------------------------	---	---	---	---	---	---	---	---	---	---

3. Summary Writing

10

Write a summary of the passage in your own words.
